PRICE

- *Cape May County Proposed Development Activity 2017* Free

- *Cape May County Bicycle Facility Study – June, 2006* Free
Abstract: Presented throughout this study of bicycle facilities, bicycling as an alternative mode of transportation, a form of recreation, and plans for facilitating the needs of the community are addressed.

- *Cape May County Boaters Guide – 2010* Free
Abstract: Cape May County coastline maps provide locations of marinas, boat ramps, recreation, and yacht clubs. Bayside restaurants with waterfront dining are listed along with a map showing their locations. Boaters will be able to contact these services through the index made available in this guide which list the phone numbers and locations.

- *Cape May County Comprehensive Plan – February, 2005* Free
Abstract: Provides an overview in order to develop new policies and re-evaluate past policies. Some of the areas addressed in the County are use of resources, environmental planning, economic development, transportation, and land use.

- *Cape May County Open Space and Recreation Plan – July, 2007* Free
Abstract: The plan serves as a conduit in providing basic strategies for open space and recreation issues. The areas addressed are the County park system, land purchased by the County and minor areas of fishing piers. The goal for the program is to provide for the residents and visitors the prospect of recreational areas and accessible open space.

- *Cape May County Summer Populations – Estimate 2016** Free
Abstract: The population forecast for the County's sixteen municipalities are for the summer.

- *Cape May County Subdivision and Site Plan Resolution – June, 2011* Free

- *Cape May County Transportation Plan – September, 2006* Free
Abstract: Cape May County has two types of communities to be considered under the transportation plan, the mainland and "barrier islands" which are found in 8 of its 16 municipalities. Subjects covered in the publication are past history, geographic location, and physical features that lend an insight for more effective planning, addressing concerns, and recommendations.

- *Map of Cape May County – May, 2005* Free

- *Cape May County Facts & Figures – 2016* Free

PUBLICATIONS (ALL AVAILABLE ON COUNTY WEBSITE)

- *Great Falls Circulation Study*

November, 2016

Abstract: A study evaluating opportunities to improve local and regional circulation, enhance pedestrian mobility, and implement gateway access improvements in the area around the Paterson Great Falls, including community-based planning and outreach, assessment of multimodal transportation needs and deficiencies, travel origin and destination data collection analysis, and traffic modeling and transportation performance measures in order to select and advance a preferred Gateway Vision Plan.

- *Green Stormwater Infrastructure Element of the Passaic County Master Plan*

September, 2018

Abstract: An element of the Passaic County Master Plan, providing the framework for the County to implement a comprehensive strategy for stormwater management based on widespread application of Green Stormwater Infrastructure and Low Impact Development strategies.

- *Highlands Rail Trail Feasibility Study*

May, 2017

Abstract: A study evaluating the creation of the Highlands Rail Trail, a bicycle- and pedestrian-friendly pathway along the historic alignment of the New York and Greenwood Lake Railway, which will utilize interpretive elements of the historic railroad and the scenic beauty along the corridor to create a regional draw for tourism.

- *Madison Avenue Commuter Rail Corridor Study*

September, 2009

Abstract: A study evaluating how restored passenger rail service between Paterson and Hackensack can best serve the community, stimulate economic activity, enhance pedestrian safety, and coordinate new and existing transit options, in order to develop a concept plan that would result in attaining the highest and best uses and urban design for the area surrounding the Madison Avenue station.

- *Molly Ann Brook Watershed Management Plan*

June, 2008

Abstract: Plan to implement a strategy to improve water quality and in-stream habitat within the Molly Ann Brook watershed.

- *Morris Canal Greenway Feasibility Study*

June, 2011

Abstract: A study evaluating how areas of open space can be connected to create a contiguous recreational trail along the historical route of the Morris Canal in Passaic County, reviewing the potential to preserve and restore open space while creating safe recreational opportunities for pedestrians and bicyclists throughout the County.

(Continued)

PASSAIC COUNTY (CONTINUED)

- *Moving Passaic County*

October, 2012

Abstract: The transportation element of the Passaic County Master Plan, which outlines a vision for a more cohesive transportation system that maximizes investment, promotes efficiency and provides more choice.

- *Parks, Recreation & Open Space Master Plan*

July, 2014

Abstract: An element of the Passaic County Master Plan, which presents recommendations for the improvement of the Passaic County Park System, and a vision for its future.

- *Passaic County Facilities Plan Phase I: Inventory & Needs Assessment*

March, 2017

Abstract: An assessment of County facilities to generate a comprehensive inventory of all property occupied by County government operations and provide an analysis of existing space needs for Departments, autonomous boards, and other offices.

- *Passaic County Farmland Preservation Plan*

September, 2008

Abstract: An element of the Passaic County Master Plan, guiding the County's efforts in preserving its remaining farmland and ensuring the continued viability of its agricultural industry.

- *Passaic County Future*

April, 2013

Abstract: Sustainability element of the Passaic County Master Plan, outlining a comprehensive action plan to achieve a sustainable future for Passaic County by improving public health and the quality of life for all residents, visitors and businesses.

- *Passaic County Site Plan Resolution*

August, 2014

Abstract: Overview of regulations governing County Planning Board review of site plans.

- *Passaic County Subdivision Resolution*

August, 2014

Abstract: Overview of regulations governing County Planning Board review of subdivisions.

- *Peckman Preserve Study*

June, 2010

Abstract: Identifies guidelines to inform the future planning of the Peckman Preserve in Little Falls.

- *Vista Park Master Plan*

August, 2018

Abstract: Plan exploring concepts for developing Visa Park as a safe and sustainable outdoor learning and recreation experience, while preserving and enhancing the natural and cultural resources and values of the property and ensuring views of the city from Great Falls National Historical Park and the setting of the Great Falls of the Passaic are protected from adverse impacts.

DVRPC's Data Resources

(as of June 2018)

<https://www.dvrpc.org/Data/>

Data Navigator

<https://www.dvrpc.org/asp/DataNavigator/>

A one-stop data repository for all geographically-based Census and DVRPC data. Regional, County, Municipal and some Census Tract data for various subject matters* are viewable online and downloadable.

*2012 - 2016 ACS data (demographic, economic, housing, social characteristics)

Census population counts (1930 - 2010) and estimates (2000 - 2009, 2010 - 2016)

DVRPC data (land use types [every 5 years 1990 - 2010]; 2045 population and employment forecasts)

Employment (place of residence/employment; mode to work for 2000 and 2010)

Crash data (total, # of fatal, injured, pedestrian, bicycle crashes for 2008 - 2016)

Building permits (1980 - 2016)

HMDA loan purpose (2000, 2005, and 2010)

GIS Data

<https://www.dvrpc.org/mapping/data/>

A Geographic Information System (GIS) is an important planning tool that supports state, regional, county, and local planning and technical efforts. Nearly all projects incorporate GIS technology, whether it is for data collection and storage, or analysis and presentation. GIS allows planners to view and query spatial data, perform advanced analysis to discover relationships, patterns, and trends, and effectively present information to decision-makers and the public. Data is available for viewing, querying, and downloading and is organized into five themes: boundaries, demographics, planning, structures, and transportation.

Interactive Maps

<https://www.dvrpc.org/mapping/Webmaps/>

DVRPC has developed several interactive mapping applications as part of our continuing effort to support planning and improve decision-making in our region. Within each application, you can view geographic features, query selective data sets, create your own custom map and access detailed reports about certain features. These web mapping applications allow DVRPC to present geospatial information to the public without the need of special GIS software.

Regional Indicators (Tracking Progress) *Update Coming Soon*

<https://www.dvrpc.org/TrackingProgress/>

Regional indicators are a means to monitor and evaluate implementation of Long-Range Plan goals and determine if the recommendations are being accomplished. Over 30 indicators are tracked, grouped under the four core principles of the Long-Range Plan. The online Tracking Progress indicators are updated periodically.

Products Search

<https://www.dvrpc.org/Products/Search/>

The DVRPC Products Database is continuously updated as reports and other items become available. Visitors can view publication abstracts and/or full PDF versions for over 1,000 reports from the late 1980s to present. In some cases, data in reports is available for download in .xls format.

Use to find DVRPC's:

- Analytical Data Reports;
- Data Bulletins;
- Data Snapshots;

and other data-driven publications, such as:

- Rating the Region;
- Investing in People and Places: Greater Philadelphia's Comprehensive Economic Development Strategy

- What Will it Take to Support New Jersey's Industry Clusters

Abstract: Provides the results and interpretation of a collaborative research project completed by the New Jersey Chamber of Commerce and PlanSmart New Jersey. The Chamber and PlanSmart NJ conducted this project to explore the concept of Regional Innovation Clusters (RICs), a theory that is explicitly promoted as a means to achieve targeted economic growth in various state level economic development initiatives. This report documents the relationship between New Jersey's industry clusters and the state's existing infrastructure to evaluate how infrastructure investment and economic development align on the ground.
<http://www.plansmartnj.org/what-will-it-take-to-support-new-jerseys-industry-clusters/>
- *What's Land Use Got To Do With It? Examining the Connections Between New Jersey's Economic Prosperity and Its Land Use Patterns*, 2011 \$50.00

Abstract: Findings of an Industry Focus Group held on April 14, 2011 with representatives of the development, pharmaceutical, research and development, technology, education, banking, logistics, law, and energy sectors. The report found key challenges in the areas of attracting a high quality labor force, navigating the State's complex and unpredictable regulatory system, and deep frustration over New Jersey's property tax system and home rule environment.
